Shirey, John 10:14 AM:

sent include/exclude list. we can clean up annotations

Darlington, Lin 10:14 AM:

one sec

Darlington, Lin 12:28 PM:

hi

Darlington, Lin 12:28 PM:

got a minute to talk

Shirey, John 12:28 PM:

hey

Shirey, John 12:28 PM:

sure

Darlington, Lin 12:28 PM:

?

Shirey, John 12:28 PM:

almost always

Darlington, Lin 12:28 PM:

calling

Darlington, Lin 12:31 PM:

2:30 not 3

Shirey, John 12:32 PM:

right.

Darlington, Lin 3:32 PM:

got a minute?

Shirey, John 3:33 PM:

annotating that FOIA list is gonna drive me crazy

Shirey, John 3:33 PM:

yes, I have a minute

Darlington, Lin 3:33 PM:

I think I've already updated the other list

Darlington, Lin 3:33 PM:

from OGC's persepective, there is very little w3 content that will not be available in the snapshot
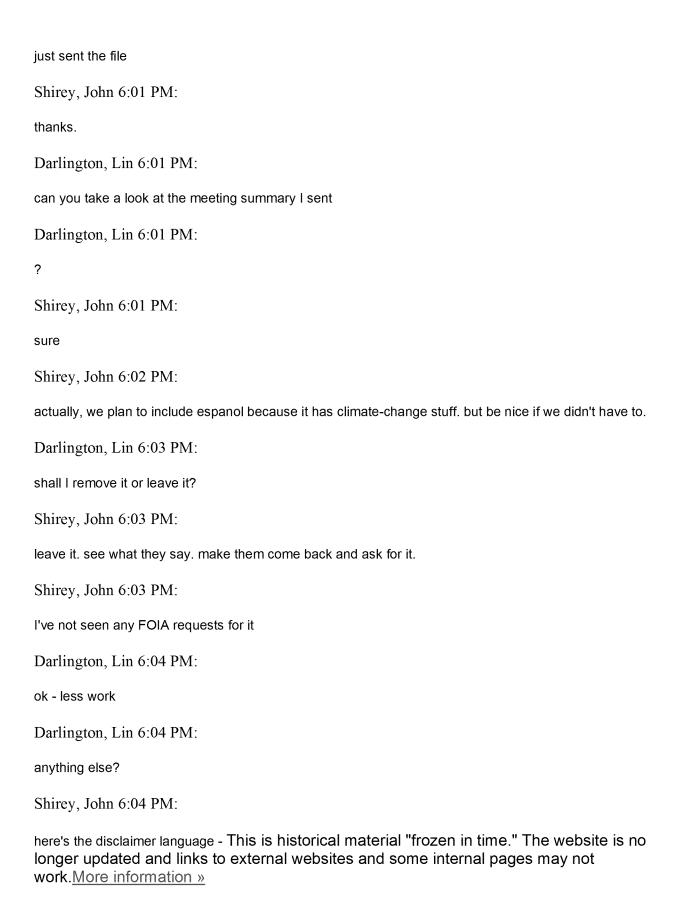

Darlington, Lin 3:34 PM:

Included Sites	Excluded Sites		
	Site	Status	Exclusion rationale
airdata	airnow	"Criteria"	300GB of images, low risk
castnet	epafiles	not part of snapshot.	
enviro	evaluate	no homepage on www3	
region2	pestwise	not current, broken images	
region6	pmdesignations	WebCMS	Several directories do not redirect. There are a lot of pages in this directory (over a 200) and only 12 only WebCMS so most must be unique though I don't know if the intention was to redirect everything.
region9	productreview	no content	
scram001	radiation	no content	
sustainabilityindicators	radnet00		repository for historical radiation graph images
warm	reg3esd1	no content	
watersense	region03	no content	
	storet		temporary files placed by STORET
	ttn	www3	old,stable, not at-risk.
	ttnairs1	no homepage on	old,stable, not at-risk.

	www3	

Shirey, John 3:34 PM:

yeah - fixing that will be simple.

Shirey, John 3:35 PM:

those sites with no data - strip them out too.

Darlington, Lin 3:35 PM:

ok

Shirey, John 3:35 PM:

the important ones to list are the areas that we are explicitly choosing not to snapshot. list nothing that's a duplicate of www content or that's leftovers from the move

Darlington, Lin 3:36 PM:

what does criteria mean?

Shirey, John 3:37 PM:

it means that it will live long and prosper on www3 - no intent to ever move it to Drupal. no reason. not very rational

Darlington, Lin 5:53 PM:

your still here

Darlington, Lin 5:54 PM:

you're

Shirey, John 5:54 PM:

nope

Shirey, John 5:54 PM:

not here

Shirey, John 5:54 PM:

phantom

Darlington, Lin 5:54 PM:

:)

Shirey, John 5:54 PM:

we're lookin good

Shirey, John 5:54 PM:

snapshot.epa.gov

Shirey, John 5:54 PM:

poke around

Darlington, Lin 5:55 PM:

ok

Darlington, Lin 5:55 PM:

can we do anything to clean up the look of the homepage

Darlington, Lin 5:55 PM:

?

Shirey, John 5:55 PM:

two major pieces done - hard-links to www replaced with "root-relative" so they all work on-site. and a trick to get the pages to work

Darlington, Lin 5:55 PM:

first impressions

Darlington, Lin 5:56 PM:

don't mean to sound ungrateful

Shirey, John 5:56 PM:

what's wrong with it. we've done some stuff, and you might not be seeing what it's going to look like. screen shot it

5:57 PM Shirey, John asked to send you "**L_6D19.tmp.PNG**".

5:57 PM **L_6D19.tmp.PNG** was saved to C:\Users\ldarling\Documents\My Received Files. It's a good idea to scan the file for viruses before you open it.
Darlington, Lin 5:57 PM:

oooh - that's niiice

Darlington, Lin 5:57 PM:

here's what I see

5:57 PM You asked to send **"14D14103.PNG"** to Shirey, John.
5:58 PM **"14D14103.PNG"** was transferred.
Shirey, John 5:58 PM:

that is odd and ugly. can you send that to Mike and me in email, please.

Darlington, Lin 5:59 PM:

suree

Darlington, Lin 5:59 PM:

sure

Shirey, John 5:59 PM:

then widen your browser a bit, and go see if you can make the real new home page at www.epa.gov do the same.

Shirey, John 5:59 PM:

is that IE11?

Darlington, Lin 5:59 PM:

yup

Shirey, John 6:00 PM:

IE is just so bad. I cannot tell you how much IE costs us in design work-arounds. probably adds 20% to design work costs. maybe more.

Shirey, John 6:01 PM:

Mike will have to tackle that Monday. he's the CSS king

Darlington, Lin 6:01 PM:

just sent the file

Shirey, John 6:01 PM:

thanks.

Darlington, Lin 6:01 PM:

can you take a look at the meeting summary I sent

Darlington, Lin 6:01 PM:

?

Shirey, John 6:01 PM:

sure

Shirey, John 6:02 PM:

actually, we plan to include espanol because it has climate-change stuff. but be nice if we didn't have to.

Darlington, Lin 6:03 PM:

shall I remove it or leave it?

Shirey, John 6:03 PM:

leave it. see what they say. make them come back and ask for it.

Shirey, John 6:03 PM:

I've not seen any FOIA requests for it

Darlington, Lin 6:04 PM:

ok - less work

Darlington, Lin 6:04 PM:

anything else?

Shirey, John 6:04 PM:

here's the disclaimer language - This is historical material "frozen in time." The website is no longer updated and links to external websites and some internal pages may not work. More information »

Shirey, John 6:05 PM:

the more information link will take them to a page that gives some guidance about the site

Darlington, Lin 6:05 PM:

so the jump page will include more info?

Darlington, Lin 6:06 PM:

than it currently has?

Shirey, John 6:06 PM:

yeah. I'm not sure exactly what the contents should / will be. Struggling a bit with how to include the www3 stuff - will likely include explicit links to those sites.

Shirey, John 6:06 PM:

you cut off a lot of included www3 sites

Darlington, Lin 6:07 PM:

ooh

Darlington, Lin 6:07 PM:

I'll go back and get them

Shirey, John 6:09 PM:

the evaluate rationale is "linked training materials" not "no home page

Darlington, Lin 6:10 PM:

so repalce "no home page" with "linked training materials"?

Shirey, John 6:10 PM:

yes.

Darlington, Lin 6:10 PM:

oh - add it

Shirey, John 6:10 PM:

also, I would strike the whole "status" column in favor of the area name and the rationale for exclusion

Darlington, Lin 6:11 PM:

ok

Shirey, John 6:11 PM:

let me update the spreadsheet.

Shirey, John 6:11 PM:

if you want to send now, tell them you'll follow up with the includes/exclusion list

Shirey, John 6:11 PM:

remove it for now and follow up.

Darlington, Lin 6:11 PM:

ok

Shirey, John 6:12 PM:

And I'll give you a good table. it will likely be two separate tables: included from www3 - 1 column; and excluded area and rationale - two columns

Darlington, Lin 6:13 PM:

Ok thanks

Shirey, John 6:13 PM:

on your desk early Monday morn

Darlington, Lin 6:13 PM:

who are pulling for in the superbowl?

Shirey, John 6:14 PM:

oh. is that this weekend?

Shirey, John 6:14 PM:

don't have a dog in this hunt

Darlington, Lin 6:14 PM:

i see

Shirey, John 6:14 PM:

I'll pull for Atlanta - the underdog, but for some reason I've just never gotten thrilled about them for any reason

Darlington, Lin 6:14 PM:

me too

Darlington, Lin 6:14 PM:

I like the commercials better than the game

Shirey, John 6:15 PM:

it's odd. because most other teams I have an opinion about.

Shirey, John 6:15 PM:

Well last year it was the Panthers, so that was exciting for us in the Tar Heel state.

Shirey, John 6:15 PM:

Kansas City - yawn. St. Louis, Phoenix - just no feelings.

Darlington, Lin 6:16 PM:

yea - usually just pull for the team closest to home

Shirey, John 6:16 PM:

I rooted for Seattle cause quarterback was from NC State. San Diego had NCSU quarterback at one time. etc

Shirey, John 6:16 PM:

and I ALWAYS root against the Redskins because they are Dallas' nemesis.

Shirey, John 6:16 PM:

And I'm

Darlington, Lin 6:17 PM:

You're OK with me then

Shirey, John 6:17 PM:

heh.

Darlington, Lin 6:17 PM:

oh wait no

Darlington, Lin 6:17 PM:

I thought you said you root for skins

Darlington, Lin 6:17 PM:

booo

Shirey, John 6:17 PM:

NOOOOOO. anybody but

Shirey, John 6:17 PM:

heh

Shirey, John 6:18 PM:

because their rivalry with Dallas back in the day was soo intense. a delightful rivalry. that's what makes the game great - hard-hitting rivalries.

Darlington, Lin 6:18 PM:

yeah - still is

Darlington, Lin 6:19 PM:

but Dallas seems to be ahead by far

Shirey, John 6:19 PM:

I'll watch the game Sunday, but might read some too. actually, I have a class at I wonder if we'll cancel. we're a bunch of nerds we might just meet

Darlington, Lin 6:19 PM:

well have a great weekend

Shirey, John 6:19 PM:

We've not had TV in a long time - nothing over the air and no cable, so I just don't follow much. You too!!
